

THE ULTIMATE ADHESIVE – THE ULTIMATE SEALANT – THE ULTIMATE ADHESIVE

MS-11

MS-POLYMER ADHESIVE & SEALANT

CRYSTAL CLEAR

- BONDS & SEALS JUST ABOUT EVERYTHING
- CAN BE APPLIED UNDER WATER
- HIGH INITIAL GRAB AND FLEXIBILITY
- CONTAINS ANTI-FUNGAL COMPOUND
- SAFE ON DELICATE MATERIALS SUCH AS: LEAD, MIRRORS & NATURAL STONE

POLYMER

MS-11

is based on a hybrid polymer formulation giving outstanding bonding and sealing properties. It outperforms and replaces construction adhesives, wood glues, PU adhesives, sealants, sanitary sealants, buthylene sealants and acrylics.

CHARACTERISTICS

High initial grab	High strength
Permanently flexible	Over-paintable
Odourless, no solvents	Can apply on wet surfaces
Can apply underwater	Non-staining
Non-shrinking	Anti-fungal compound
Safe for use with delicate and sensitive materials	

APPLICATIONS

MS-11 bonds and seals all metals, including soft metals such as lead without staining, mirrors, all woods including timber, MDF and chipboard, natural stone and marble without staining, most plastics, glass, concrete, polystyrene, polyurethane, laminates, plaster, cork, tiles etc.

INSTRUCTIONS

Ensure all surfaces are clean, dry and free from dust, grease and all other contaminants. Cut the tip of the cartridge and attach nozzle.

SEALING

Cut the nozzle at an angle of 45° with an opening slightly larger than the gap to be sealed. Apply using a standard sealant gun, keeping an even pressure on the trigger and keeping the gun at a constant angle. Tool down immediately with a spatula or piece of wood wetted with a soap and water solution.

BONDING

Apply in beads or dots to one surface, press together and leave to cure.

Information given is for general guidance only. Refer to product data and safety data sheets for full instructions and precautions in use.

Store between 5°C and 25°C in cool dry conditions.
